Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

Part III DETAILED ACTION

Notice to Applicant(s)

1. This action is responsive to the following communications: amendment filed on 6/16/05.
2. This application has been reconsidered. Claims 1-13, 25-42, 44-50, and 53-57 are pending.

Claim Rejections - 35 USC § 102

3. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(e) the invention was described in a patent granted on an application for patent by another filed in the United States before the invention thereof by the applicant for patent, or on an international application by another who has fulfilled the requirements of paragraphs (1), (2), and (4) of section 371(c) of this title before the invention thereof by the applicant for patent.

The changes made to 35 U.S.C. 102(e) by the American Inventors Protection Act of 1999 (AIPA) and the Intellectual Property and High Technology Technical Amendments Act of 2002 do not apply when the reference is a U.S. patent resulting directly or indirectly from an international application filed before November 29, 2000. Therefore, the prior art date of the reference is determined under 35 U.S.C. 102(e) prior to the amendment by the AIPA (pre-AIPA 35 U.S.C. 102(e)).

4. Claims 37, 38, 39, 40, 41, 42, 44, 45, 46, 47, and 53-57 are rejected under 35 U.S.C. 102(e) as being anticipated by Brobst et al (Brobst) (U.S. 6,061,700).

Art Unit: 2626

With respect to claims 37, 40, 41, 42, 46, and 47, Brobst discloses a method of printing one or more printable pages of data originating from one or more web-sites (column 3, lines 12-40) by selecting one or more printable pages of data from one or more web-sites that a user has previously been connected to (which reads on a list of URLs from a web browser's historic memory) (column 5, lines 21-32); providing a predetermined number representing a total number of printable pages (which reads on the user defining a number of selected pages) (lines 1-4 of the abstract; column 4, lines 6-10, and column 5, lines 11-58) or a total number of web-sites (URLs) (column 5, lines 11-41); determining whether the number of printable pages of data selected from the one or more web-sites exceeds a predetermined number of printable pages of data (which reads on determining the depth into the nesting tree which the formatting mechanism reaches to find related URLs, wherein the depth refers to the links (or web-sites) in each page) (column 5, lines 49-67); and printing one or more of the selected printable pages of data up to said predetermined number of printable pages of data, if it is determined that the number of selected printable pages of data exceeds said predetermined number of printable pages of data, and otherwise printing each of the selected printable pages of data (which reads on gathering/collecting and selecting for printing only the related web pages that are within a predetermined nesting level) (column 5, lines 11-67 and column 6, lines 1-64).

With respect to claims 38, 44, Brobst discloses the web-sites are accessed using a Web browser (column 2, lines 59-66).

With regard to claims 39, 45, Brobst discloses prompting the user to identify particular printable pages of data desired to be printed (column 5, lines 42-67 and column 6, lines 43-53).

Art Unit: 2626

With respect to claims 53 and 55, Brobst discloses the one or more printable pages of data are selected and printed using an application program (web browser) (column 1, lines 23-42 and column 2, line 59 to column 3, line 30), such that the predetermined number of printable pages of data limits use of said application program (column 5, lines 42-67 (selecting web pages up to a definitive level obviously limits use of the browser since an exhaustive number of levels or pages would not be retrieved).

With respect to claims 54, 56, and 57, Brobst discloses the predetermined number of printable pages of data are defined by a provider (user) of said application program (column 11, lines 21-26 and column 5, lines 42-67).

Allowable Subject Matter

5. Claims 1-13, 25-36 and 48-50 are allowed.

Response to Arguments

6. Applicant's arguments filed 6/16/05 have been fully considered but they are not persuasive. Applicant submits that Brobst does not disclose setting a predetermined number representing a total number of pages (or web-sites), and determining whether the selected number of pages to be printed exceeds that predetermined number. If the number exceeds the predetermined number, only a number of pages up to the predetermined pages is printed. The Examiner disagrees.

Brobst discloses that the user defines a list of URLs (a URL typically defines a single web page) (column 5, lines 21-23). This clearly reads on providing a predetermined number of

Art Unit: 2626

printable pages, since the list of URLs are compiled and generated into a single flattened Web page (figure 3), which is then printed (column 6, lines 43-67). Only the selected list of Web pages is printed (column 6, lines 43-53).

Conclusion

7. **THIS ACTION IS MADE FINAL.** Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than **SIX MONTHS** from the mailing date of this final action.
